Charges and assessments for funding such funds will be paid by the Owner or Owners of each such Lot in advance in semiannual installments, commencing as to all Lots upon the recordation of this Declaration. The rate at which each Lot will be assessed, and whether such assessment shall be payable semiannual payments, will be determined by the Board at least thirty (30) days in advance of each assessment period. Said rate may be adjusted within the limit permitted herein and by the Bylaws from time to time by the Board as the needs of the Association may, in the judgment of the Board, require. Notwithstanding anything else contained herein, except in the case of an emergency, the Board may not impose a per-Lot annual assessment (excluding additional assessments pursuant to Section 2.13 and/or Section 2.15) for any year that is more than 15% greater than the per-Lot annual assessments for the immediately preceding year without the approval of Owners owning more than two-thirds of the then-existing Lots within Deschutes River Ranch. As used in the foregoing sentence, "emergency" shall mean a situation or occurrence that is likely to result in a material negative impact on services to Owners and/or pose a health or safety risk. The annual assessment (excluding additional assessments pursuant to Section 2.13 and/or Section 2.15) for each Lot shall be uniform except as specifically provided herein (such as for roads serving Estate Lots or for the Community Septic System serving only the Serviced Lots) or as provided in any Declaration of Annexation for Deschutes River Ranch. The Association shall, upon written demand and for a reasonable charge, furnish a certificate signed by an officer of the Association setting forth whether or not the assessment for a particular Lot has been paid for a particular assessment period. No Lot Owner shall have any right to any common profits of the Association.

Section 2.8 "Intentionally Omitted"

Section 2.9 Purposes of Maintenance Fund

The Association shall establish a maintenance fund composed of annual maintenance assessments and shall use the proceeds of such fund in providing for normal, recurring maintenance charges for the Common Maintenance Areas for the use and benefit of all members of the Association. Such uses and benefits to be provided by the Association may include, by way of clarification and not limitation, any and all of the following: (i) normal, recurring maintenance of the Common Maintenance Areas (including, but not limited to, mowing, edging, watering, clipping, sweeping, pruning, raking, and otherwise caring for landscaping) and the Improvements to such Common Maintenance Areas, such as irrigation sprinkler systems, provided that the Association shall have no obligation (except as expressly provided hereinafter) to make capital improvements to the Common Maintenance Areas; (ii) perpetual maintenance, repair, and enhancement for any fences, columns, walls, grounds, landscaping, lights, irrigation systems, Community Septic System (subject to the terms of Section 7.6 below) and entry monuments that serve or benefit Deschutes River Ranch; (iii) perpetual maintenance of storm water quality/quantity pond facilities within or which serve the Property; (iv) payment of all legal and other expenses incurred in connection with the enforcement of all recorded covenants, restrictions and conditions affecting the property to which the maintenance fund applies; (v) payment of all reasonable and necessary expenses in connection with the collection and administration of the maintenance charge and assessment; (vi) payment of expenses for utilities serving Common Areas and/or Common Maintenance Areas; (vii) payments due under Article VI; (viii) taxes or assessments on Common Areas and improvements or property owned by the Association; and (ix) all other activities necessary or desirable in the opinion of the Board to keep the Property neat and in good order, or which is considered of general benefit to the Owners or occupants of the Property, it being understood that the judgment of the Board, subject to the amended terms of Section 1.6.10, in the expenditure of said funds and the determination of what constitutes normal, recurring maintenance shall be final and conclusive so long as such judgment is exercised in good faith. Notwithstanding the foregoing, the Association shall keep separate records of the costs involved in operating, maintaining and repairing the Community Septic System and shall include those costs only in the assessments charged to Owners of Serviced Lots. In addition, to the extent the Association determines that any road(s) benefits one or more Estate Lots particularly or exclusively, the Association shall allocate the costs of operating, maintaining and repairing such road(s) accordingly.

Section 2.10 Reserve Funds

A. Reserve Fund for Replacing Common Maintenance Areas.

Declarant shall in addition establish a reserve fund in the name of the Association for replacement, in whole or in part, of the Common Maintenance Areas and any Improvements located in, on, or under the Common Maintenance Areas for which the Association is responsible pursuant to this Declaration, that will normally require replacement in more than three (3) and fewer than thirty (30) years, including exterior painting, if the Common Maintenance Areas include exterior painted surfaces. The reserve account need not include those items that could reasonably be funded from the maintenance fund. Assessments for the reserve fund under this Section shall begin accruing from the date the first Lot assessed is conveyed. For purposes of funding the reserve fund, the Association shall impose an assessment to be called the "Reserve Fund Assessment" against each Lot, which assessment shall be spread equally over the Lots. The reserve fund shall be kept separate from other funds and may be used only for the purposes for which reserves have been established as specified in this Section. However, the Board may borrow funds from the reserve account to meet high seasonal demands on the regular operating funds or to meet unexpected increases in expenses. Funds borrowed under this Section must be repaid later from assessments if the Board has adopted a resolution, which may be an annual continuing

resolution, authorizing the borrowing of funds. Not later than the adoption of the budget for the following year, the Board shall adopt by resolution a written payment plan providing for repayment of the borrowed funds within a reasonable period. The Association shall administer the reserve fund and shall make periodic payments into the account. The board shall set future assessments for the reserve fund annually. Such assessments shall be ratified by the affirmative vote of Owners of at least seventy-five percent (75%) of the Lots represented at the annual or duly noticed special meeting at which a quorum is present. In the event such assessment is not approved, the assessment from the prior year shall be collected unless and until a new assessment for reserves is approved as provided herein. Any funds established for any of the purposes mentioned in this Section shall be deemed to be a reserve fund notwithstanding that it may not be so designated by the Board. The amount of the reserve fund shall constitute an asset of the Association and shall not be refunded or distributed to any Owner. The reserve portion of the initial assessment determined by the Declarant shall be based upon the initial reserve study described in Section 2.10.B.a, or other sources of reliable information. Notwithstanding the foregoing, the Association shall keep separate records of the necessary reserves for the Community Septic System. The Association shall allocate the costs of building such reserves only to the Owners of Serviced Lots. In addition, to the extent the Association determines, in its reasonable discretion, that any road benefits one or more Estate Lots particularly or exclusively, the Association shall keep separate records of the necessary reserves for that road and allocate the costs of building such reserves accordingly, to carry out the intention of Section 2.15.

B. Reserve Study

The Board shall annually conduct a reserve study, or review and update an existing study, to determine the reserve fund account requirements and may adjust the amount of payments as indicated by the study or update and provide for other reserve items that the Board, in its discretion, may deem appropriate. The reserve study shall include (a) identification of all items for which reserves are required to be established; (b) the estimated remaining useful life of each item as of the date of the reserve study; (c) the estimated cost of maintenance, repair, or replacement of each item at the end of its useful life; and (d) a thirty (30) year plan with regular and adequate contributions, adjusted by estimated inflation and interest earned on the reserve fund, to meet the maintenance, repair, and replacement schedule.

Section 2.11 Non-payment of Assessments: Remedies of the Association

Any assessment not paid within ten (10) days after the due date shall bear interest from the due date at the rate set by the Board from time to time but in no event greater than the highest rate allowed by Oregon law at the time of the non-payment. The Association shall have the authority to impose late charges to compensate for the administrative and processing costs of late payments on such terms as it may establish by duly adopted resolutions and the Association may bring an action at law against the Owner personally obligated to pay the same. No Owner may waive or otherwise escape liability for the assessments provided for herein by non-use of the Common Maintenance Area or abandonment of Owner's Lot and/or Unit.

Section 2.12 Subordinated Lien to Secure Payment

To secure the payment of the maintenance charge and all other assessments (including for reserves) established hereby and to be levied on individual Lots as provided in this Article II and all other obligations of a Lot Owner under this Declaration, there is hereby reserved a lien in favor of the Association for the benefit of all other Owners, on each Lot, said lien to be enforceable through appropriate proceedings at law or in equity by the Association; provided, however, that each such lien shall be specifically made secondary, subordinate and inferior to all liens (including the lien of any

ground leases created by Declarant on Estate Lots), present and future, given, granted, and created by or at the instance and request of the Owner of any such Lot to secure the payment of monies advanced or to be advanced on account of the purchase price and/or the improvement of any such Lot; and further provided that as a condition precedent to any proceeding to enforce such lien upon any Lot upon which there is an outstanding valid and subsisting first mortgage lien, the Association shall give the holder of such first mortgage lien sixty (60) days written notice of such proposed action, such notice, which shall be sent to the nearest office of such first mortgage lien holder by prepaid U.S. registered mail, to contain the statement of the delinquent maintenance charges upon which the proposed action is based. Upon the request of any such first mortgage lien holder, the Association shall acknowledge in writing its obligation to give the foregoing notice with respect to the particular property covered by such first mortgage lien to the holder thereof. The provisions regarding the attachment, notice, recordation, and duration of liens established on real property under ORS 94.709 shall apply to the Association's lien. Sale or transfer of a Lot shall not affect the assessment lien. However, the sale or transfer of any Lot pursuant to mortgage foreclosure shall extinguish the lien of such assessment as to payments that became due before such sale or transfer. No sale, foreclosure or transfer shall relieve such Lot from liability for any assessments thereafter becoming due or from the lien thereof. The Association shall have the right to file notices of liens in favor of such Association in the real property records of Deschutes County, Oregon.

Section 2.13 Additional Assessments

In addition to the periodic assessments described in this Article II, the Association shall have the authority to assess an Owner's Lot(s) for costs and expenses incurred by the Association for corrective action, including without limitation court proceedings, that is required as a result of the willful or negligent actions or omissions of such Owner or such Owner's family members, tenants, guests, contractors or invitees. Each such additional assessment, together with interest, costs, and reasonable attorney's fees, shall be a charge on the land, a continuing lien upon the Lot, and the personal obligation of the Owner in the manner described in Section 2.6 for annual and special assessments.

Section 2.14 Reallocation Upon Annexation of Property

When additional property is annexed to the Property, the Association shall, within sixty (60) days after the annexation, recompute the budget based upon the additional Lots and Common Areas and Common Maintenance Areas and recompute all applicable assessments for each Lot. New Lots shall be subject to assessment from the time of annexation of such Lots to the Property. The Association shall send notice of any applicable assessment to the Owners of new Lots not later than sixty (60) days after the annexation or with the next occurring annual assessment, whichever is sooner. Assessments shall be due and payable on or before a date set forth in the notice which shall be not less than thirty (30) days after the date the notice is mailed or at such other time or times as the Association may specify in the notice in accordance with this Declaration or the Bylaws. If additional property is annexed to the planned community of Deschutes River Ranch during the Association's fiscal year, the Association shall send notice of and shall collect adjustments to assessments for Lots which were within the Property prior to the annexation. Notice of the adjustment in the assessments shall be sent to such Owners not later than sixty (60) days after the annexation or with the next occurring annual assessment, whichever is sooner. To the extent that any adjustment results in a credit with respect to assessments payable by an Owner, such credit shall be applied toward the next occurring payment or payments of the applicable assessment.

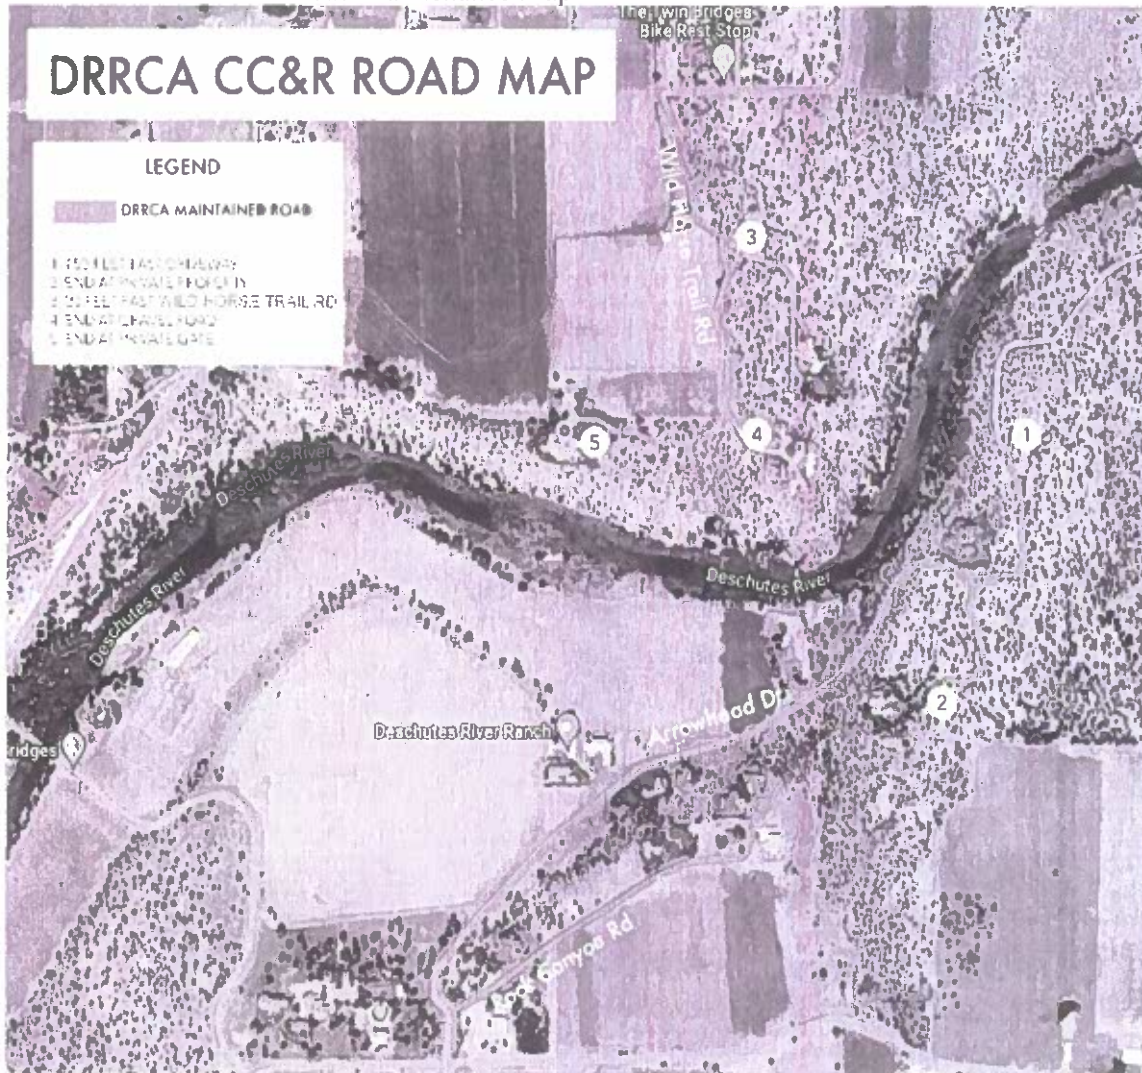

Section 2.15 Roadway Usage

Prior to or upon the annexation of any Estate Lot(s) into this Declaration, the Declarant shall construct such road(s) as are reasonably necessary to grant access to the Owner of such Lot(s).

Such road(s) shall be built to such standard as Declarant shall determine in its sole discretion; provided, such road(s) provides reasonable access to the applicable Estate Lot(s). Upon annexation of any Estate Lot(s), Declarant or the applicable Related Party, as the case may be, shall grant an easement to the Association to use, maintain and replace such road(s) and the Association shall commence and perform such maintenance as is reasonably necessary to assure continuous access to the Estate Lot(s) served by such road(s). Notwithstanding the foregoing, the Association's obligation to clear snow from or repair weather damage to such road(s) shall be limited to such action as is reasonable under the circumstances. By acceptance of a deed to such an Estate Lot, the purchaser thereof agrees to reimburse the Association for the Owner's share of the Association's costs (including reserves) related to the maintenance, repair and replacement of the road(s) serving his or her Estate Lot as part of his or her Lot's assessments. When a road serves more than one Estate Lot, each Owner shall pay its proportionate share. If the Association reasonably determines that any such road(s) also provides access to other Owners or to all the Owners in general, it shall allocate the costs of maintenance, repair and replacement (including reserves) of such road(s) in its reasonable discretion to those Owners it determines are benefited, based upon its determination of each Owner's proportionate use. It is the intention of the foregoing that (i) all Owners pay a share of the costs related to any road(s) that are available for general access to Common Maintenance Areas or other common amenities; and (ii) Owner(s) of Estate Lot(s) that are specifically served by one or more roads shall pay their fair share of the costs related to such roads based upon the fact that such roads specifically or exclusively benefit their Lot(s). All amounts owed to the Association pursuant to this Section 2.15 shall be deemed additional assessments on the applicable Estate Lot(s). Each such additional assessment, together with interest, costs, and reasonable attorney's fees, shall be a charge on the land, a continuing lien upon the Estate Lot, and the personal obligation of the Owner in the manner described in Section 2.6 for annual and special assessments. This Section 2.15 shall not be applicable to the main roads into Deschutes River Ranch, which roads shall be deemed to benefit all Owners equally.

Notwithstanding the foregoing, the Association has determined that those segments of Lower Arrowhead Drive, Upper Arrowhead Drive, Rock Canyon Road, and Wild Horse Trail, that are depicted as "Shared Maintenance Road Sections" on Shared Road Maintenance Map below benefit all Owners equally under the standards of this Section 2.15. As a result, all Owners shall share equally in the costs to maintain, repair and replace (including, but not limited to, the establishment of appropriate reserves) the Shared Maintenance Road Sections depicted on the Shared Road Maintenance Map set forth below.

Shared Road Maintenance Map

Section 2.16 Professional Management

The Association may be professionally managed. In the event the Board or the Owners elect to use a professional manager, the same shall be selected and hired by the Association Board. No member of the Board shall have any financial (whether direct or indirect) or familial relationship with such manager. As used herein, familial relationship shall mean and include the following (whether natural or adopted): spouses, parents (including in-laws), siblings (including in-laws), children, grandparents, grandchildren, aunts, uncles, nieces, nephews, and first cousins. If a professional manager is engaged, the Board shall annually review the scope of work and compensation provided by the management contract. In the event a professional manager is engaged to manage the Association, the decision to terminate professional management (but not the decision to terminate and/or replace a particular manager) shall require the approval of Owners owning seventy-five percent (75%) of the then existing Lots within Deschutes River Ranch.

ARTICLE III - GENERAL POWERS AND DUTIES OF BOARD OF DIRECTORS

Section 3.1 “Intentionally Omitted”

Section 3.2 Purpose of Maintenance Fund

The Board, for the benefit of the Owners, shall provide and shall pay for out of the maintenance fund provided for in Article II above the following:

B. Maintenance, repairs, and enhancement of the Common Maintenance Areas and any Improvements therein.

C. The services of a professional person or management firm to manage the Association or any separate portion thereof to the extent deemed advisable by the Board, and the services of such other personnel as the Board shall determine to be necessary or proper for the operation of the Association, whether such personnel are employed directly by the Board or by the manager.

D. Legal and accounting services.

E. A policy or policies of insurance insuring the Association and/or its Board and officers against any liability to the public or to the Owners (and/or invitees or tenants) incident to the operation of the Association in any amount or amounts as determined by the Board, including a policy or policies of insurance as provided herein in Article IV.

F. Workers compensation insurance to the extent necessary to comply with any applicable laws.

G. Amounts due under Article VI.

H. Such fidelity bonds as may be required by the Bylaws or as the Board may determine to be advisable.

I. Any other materials, supplies, insurance, furniture, labor, services, maintenance, repairs, structural alterations, taxes, assessments, fees or costs, which the Board is required to obtain or pay for pursuant to the terms of this Declaration or by law or which in its opinion shall be necessary or proper for the enforcement of this Declaration.

Section 3.3 Duties of Board

The Board, for the benefit of the Owners, shall have the following general powers and duties, in addition to the specific powers and duties provided for herein and in the Bylaws of the Association and the powers and duties of a non-profit corporation pursuant to the Oregon Nonprofit Corporation Act and a homeowner’s association pursuant to ORS 94.630:

A. To execute all declarations of ownership for tax assessment purposes with regard to the Common Areas, if any, on behalf of all Owners.

B. To borrow funds to pay costs of operation secured by assignment or pledge of rights against delinquent Owners if the Board sees fit.

C. To enter into contracts, maintain one (1) or more bank accounts, and generally to have all the power necessary or incidental to the operation and management of the Association.

D. To protect or defend the Common Maintenance Areas from loss or damage by suit or otherwise and to provide adequate reserves for replacements.

E. To make reasonable rules and regulations for Deschutes River Ranch, including the operation of the Common Areas, and the Common Maintenance Areas, and to amend them from time to time; provided that, any rule or regulation is consistent with governmental and/or regulating authority requirements, including county code, documents related to Deschutes River Ranch, and the Easement Areas as described in Section 6.1, and that any rule or regulation may be amended or repealed by an instrument in writing signed by a majority of the Owners, or with respect to a rule applicable to less than all of the Common Areas, by the Owners in the portions affected.

F. Within ninety (90) days after the end of the fiscal year, to distribute to each Owner and, upon written request, any mortgagee of a Lot, a copy of the annual financial statement consisting of a balance sheet and income and expenses statement for the preceding fiscal year.

G. To make all books and records of the Association available for inspection by Owners at reasonable times and intervals.

H. To adjust the amount, collect and use any insurance proceeds to repair damage or replace lost property, and if proceeds are insufficient to repair damage or replace lost property, to assess the Owners in proportionate amounts to cover the deficiency.

I. To enforce the provisions of any rules made hereunder and to enjoin and seek damages from any Owner for violation of such provisions or rules.

J. To collect all assessments and enforce all penalties for non-payment including the filing of liens and institution of legal proceedings.

Section 3.4 Board Powers Exclusive

The Board shall have the exclusive right to contract for all goods, services and insurance, payment of which is to be made from the maintenance fund and the exclusive right and obligation to perform the functions of the Board except as otherwise provided herein.

Section 3.5 Maintenance Contracts

The Board, on behalf of the Association, may enter into contracts by which the Association agrees to perform services that the Association is not otherwise required to perform. Such contracts may be with any Owner or other person or entity and shall be upon such terms and conditions and for such consideration as the Board may deem proper, advisable and in the best interest of the Association. Without limiting the generality of the foregoing and by way of example, the Association

may contract to resurface an Owner's driveway at the same time as the Association is completing road projects on Common Maintenance Areas.

ARTICLE IV - COMMON MAINTENANCE AREAS

Section 4.1 Improvements

The Declarant has or will construct the following Improvements, which Improvements shall be constructed on Common Maintenance Areas and do not constitute Common Areas (unless and until such Improvements are specifically identified as such in a Declaration of Annexation): the monument entry, the private drive fencing, the landscape buffer area, and the Community Septic System, all as shown on attached Exhibit B, together with stone walls and fencing along portions of the roads within the subdivision. The foregoing shall not be construed so as to require that such Improvements be built to any specified design or other standards, except applicable Deschutes County or State of Oregon codes and requirements. Notwithstanding the foregoing, except as provided in Section 4.7, the Declarant does not choose to limit its right to add Improvements not described in this Declaration to the planned community of Deschutes River Ranch. Some of the improvements identified in this Section 4.1 may belong to third parties, such as a utility company or district, and may benefit property or individuals outside Deschutes River Ranch.

Section 4.2 Association to Hold

The Association shall own any Common Areas established or created within the Property in fee simple and shall assume all associated maintenance obligations. Any Common Areas transferred to the Association by the Declarant shall be conveyed in fee simple, free and clear of any monetary liens and encumbrances. Nothing contained herein shall create an obligation on the part of Declarant to establish any Common Area. Following the conveyance of Common Areas to the Association, dedication, mortgage or conveyance of the Common Areas shall require the affirmative vote of at least seventy-five percent (75%) of the outstanding votes.

Section 4.3 Liability Insurance; Casualty Insurance

From on and after the date on which title to or responsibility for any Common Areas or Common Maintenance Areas vests in the Association, the Association shall purchase and carry (i) insurance for all insurable improvements in the Common Maintenance Areas against loss or damage by fire or other hazards, including extended coverage, vandalism and malicious mischief, which insurance shall cover the full replacements costs of any repair or reconstruction in the event of damage or destruction from any such hazard if the insurance is available at reasonable cost; and (ii) a general comprehensive public liability insurance policy for the benefit of the Association, covering occurrences on the Common Areas and in the Common Maintenance Areas and all damage or injury caused by the negligence of the Association, which policy limits shall be as determined by the Board of the Association, but shall include public liability insurance of at least One Million Dollars (\$1,000,000.00) per person, per occurrence. The Association shall use its best efforts to see that such policy shall contain, if available, cross-liability endorsements or other appropriate provisions for the benefit of the Board, the Owners and other insureds, as their interests may be determined by the Board, ensuring all against liability to each other insured as well as third parties. Any proceeds of insurance policies owned by the Association shall be received, held in a segregated account and distributed to all interested parties, as their interests may be determined. The insurance coverage obtained and maintained by the Association may not be brought into contribution with insurance bought by Owners or their mortgagees.

Section 4.4 Condemnation

If there is a condemnation or a sale in lieu thereof of all or any portion of the Common Areas, the Association shall represent the Owners in negotiations with the condemning authority. The funds payable with respect thereto shall be payable to the Association and shall be used by the Association to purchase additional Common Areas to replace that which has been condemned or to take whatever steps it deems reasonably necessary to repair or correct any damage suffered as a result of the condemnation. If the Board of Directors of the Association determines that the funds cannot be used in such a manner due to the lack of available land for additional Common Areas or for whatever reason, any remaining funds may be distributed to each Owner based on an equal amount per Lot.

Section 4.5 Maintenance of Common Maintenance Areas

The Association will permanently maintain, repair and replace as necessary:

- A. All Common Maintenance Areas;
- B. The improvements installed pursuant to Section 4.1, to the extent the same benefit the Association and/or the Owners; and
- C. Association irrigation lines within the public rights-of-way and street or sidewalk.

The Common Maintenance Areas include some improvements located on, or to be constructed on, one or more of the easement areas identified in Section 6.1. Section 6.1 provides for a fee to be paid by the Association to reimburse the Declarant for the Association's share of insurance, taxes and maintenance on the easement areas, including all improvements located thereon. It is the intent of this Declaration that the Association pay for all expenses related to property and improvements owned by the Association, or that benefit Deschutes River Ranch, the Association and/or the Owners. To the extent the Association directly incurs and/or pays such expenses, Declarant shall not also seek reimbursement from the Association. To the extent the Declarant undertakes such expenses, the Association shall reimburse the Declarant.

Section 4.6 Prohibited Activities

Neither the Association nor any Owner shall conduct any of the following activities within any Common Maintenance Area (including Common Areas): (i) the removal of any tree greater than six (6) inches diameter at breast height, measured 4.5 feet above ground, without the written opinion of a certified Arborist that the tree is diseased and will not survive, or the tree poses a substantial threat of property damage or personal injury; (ii) the removal of any other vegetation without the written consent of the Board; (iii) the modification, grading, excavation, filling or other activities which would alter the topography or vegetative cover without the written consent of the Board; (iv) the disposal or placement of any debris, refuse, soil, rock, landscape debris or other deleterious materials; (v) subject to the amended terms of Section 6.1 E, parking, storage, repair, or disposal of any motor vehicle; and (vi) subject to the amended terms of Section 6.1 E, motor vehicle access (except on roads or roadways or as may be necessary for repairs or maintenance approved by the Board or in conjunction with maintenance of utilities).

Section 4.7 Limitations on Annexation of Additional Common Maintenance Areas

Notwithstanding the right of Declarant to annex additional property into the community of Deschutes River Ranch, only the following may be annexed or designated by Declarant as Common Areas or Common Maintenance Areas (or have the cost of maintenance reimbursed pursuant to Section 6.1.E) after the sale of the first Lot to a third party without first obtaining the approval of Owners (other than Declarant) owning at least two-thirds of the then existing Lots for such annexation or designation (or reimbursement):

- A. Any open space, subject to the density limitation provided in Section 10.1;
- B. Any Roads serving Estate Lots and/or the community of Deschutes River Ranch generally;
- C. Any portion of any of the Riparian Easement Area, Upland Wildlife Easement Area, Agricultural Easement Area and/or Recreation Easement Area (including any additions to such easement areas as may be made from time to time in accordance with this Declaration), together with all existing improvements thereon;
- D. North river park and pavilion;
- E. South entry cluster boxes (for mail receipt and drop off) with related shelter and lighting;
- F. South park lawn and pavilion;

ARTICLE V - DESIGN REVIEW

Section 5.1 Design Review Committee

A committee to be known as the Design Review Committee (the "DRC") shall be established consisting of the number of members as determined by the Board, except that the DRC shall consist of not less than three (3) members.

A. The Board shall appoint the members of the DRC. Members of the DRC may be terminated and/or replaced by the Board with or without cause. Individuals may serve as members of the Board and members of the DRC simultaneously.

B. The purpose of the DRC is to enforce the design standards of the community and to approve or disapprove plans for Improvements proposed for the Lots.

C. The DRC shall act by simple majority vote, and shall have the authority to delegate its duties or to retain the services of a professional engineer, architect, designer, inspector or other person to assist in the performance of its duties; provided, however, if the costs of a professional engaged by the DRC is to be borne by a particular Owner whose plans are being reviewed, the Owner shall first be apprised in writing of the estimated costs thereof.

D. Decisions of the DRC may be appealed to the Board, which shall have discretion as to whether to hear such appeals. The determination of the Board shall be final.

E. No approval of the DRC required hereunder shall be valid unless and until the same is granted in writing.

Section 5.2 Design Manual

The Board has adopted and may, from time to time, amend, modify, or revise the Design Manual. The DRC shall have the right to amend, modify, or revise the Design Manual, subject to the approval of the Board. No such amendments, modifications, or revisions shall affect any prior DRC approval.

Section 5.3 Scope of Review

No building, fence, wall, patio, deck, outbuilding, landscaping, pool, athletic facility or other structure or Improvement shall be erected, altered, added onto or repaired upon any portion of the Property without the prior written consent of the DRC, provided however, that all Improvements erected, altered, added onto or repaired by Declarant shall be exempt from the provisions of this Article V.

Section 5.4 Submission of Plans

Before the initiation of construction upon any Lot (including material changes to landscaping), the Owner thereof shall first submit to the DRC a complete set of plans and specifications for the proposed Improvements, including site plans, grading plans, landscape plans, floor plans depicting room sizes and layouts, exterior elevations, specifications of materials and exterior colors, and any other information deemed necessary by the DRC for the performance of its function pursuant to the procedure outlined in the Design Manual (if any). In addition, the Owner shall submit the identity of the individual or company intended to perform the work and projected commencement and completion dates and funds in the amount of the applicable review fee. The review fee schedule shall be established by the DRC from time to time and shall set forth the review fee for various review/approval requests. The DRC shall have the right from time to time to amend such schedule, adjusting the fee amounts. The Association Board shall have the authority to disapprove any fees that it deems unreasonable. The DRC may, in its discretion, require a two-step review process, whereby conceptual drawings are submitted and reviewed first. After approval of the conceptual plans, the Owner would submit the more technical plans required by this Section 5.4. The process for DRC review shall be set forth in the Design Manual promulgated by the DRC from time to time.

Section 5.5 Plan Review

Upon receipt by the DRC of all of the information required by this Article V, it shall have twenty-one (21) days in which to review said plans. The proposed Improvements will be approved if, in the sole opinion of the DRC: (i) the Improvements will be of an architectural style and material compatible with the other structures in the Property; (ii) the Improvements will not violate any restrictive covenant or encroach upon any easement or cross building setback lines; (iii) the Improvements will not result in the reduction in property value, use or enjoyment of any of the Property; (iv) the individual or company intended to perform the work has provided proof that it is licensed under the laws of the State of Oregon and has procured insurance reasonably acceptable to the DRC; and (v) the Improvements will be substantially completed, including all cleanup, within three (3) months of the date of commencement (twelve (12) months for the construction of a complete house). If the DRC fails to issue its written approval, or rejection, within twenty-one (21) days of its receipt of the last of the materials or documents required to complete the Owner's submission, the DRC's approval shall be deemed to have been granted without further action.

Section 5.6 Non-Conforming Structures

If there shall be a material deviation from the approved plans in the completed Improvements, such Improvements shall be in violation of this Article V to the same extent as if erected without prior approval of the DRC unless the Owner subsequently obtains DRC approval for such deviation, which approval may be granted or denied in the DRC's sole discretion. The DRC, the Association or any Owner may maintain an action at law or in equity for the removal or correction of the non-conforming structure and, if successful, shall recover from the Owner in violation all costs, expenses and fees incurred in the prosecution thereof.

Section 5.7 Immunity of DRC Members

No individual member of the DRC shall have any personal liability to any Owner or any other person for the acts or omissions of the DRC if such acts or omissions were committed in good faith and without malice. The Association shall defend any action brought against the DRC or any member thereof arising from acts or omissions of the DRC committed in good faith and without malice.

Section 5.8 Limited Review

Any review and approval made by the DRC is limited to compliance with the intent of the design standards of DRR as may from time to time be established by the Board and/or the Design Manual. The review and approval made by the DRC is not to be construed as superseding, replacing, or modifying any review, approval, or permit required by any local, state or federal jurisdictional agencies. It is the applicant's responsibility to obtain and comply with any permits that may be required by any local, state, or federal jurisdictional agency. Nor shall any such review or approval by the DRC be deemed an assurance or statement of compliance with any applicable laws, ordinances or regulations.

Section 5.9 Address for Notice

Requests for DRC approval or correspondence with the DRC shall be addressed to Deschutes River Ranch Design Review Committee, 20320 Arrowhead Drive Bend, Oregon 97703, or such other address as may be designated from time to time by the DRC in a writing addressed to all Owners. Properly addressed and stamped correspondence or requests for approval shall be deemed to have been received three (3) business days after being deposited in the U.S. Mail; provided, however, receipt shall not constitute assurance that the correspondence or request for approval is complete or satisfactory to the DRC. The time limits imposed upon the DRC under this Article V shall not apply unless and until applicant has satisfactorily submitted all materials required by the DRC.

Section 5.10 Completion of Improvements

Once construction has commenced, each Owner shall have twelve (12) months during which to substantially complete construction, including all cleanup, of the initial Unit and twelve (12) months thereafter to complete the installation of landscaping on the Lot. DRC approval shall be deemed invalid if construction does not commence on the approved Improvement within three (3) months of approval or such longer period of time as may be specified by the DRC. The DRC shall have the right to grant extensions for any deadline in this Section 5.10 with respect to any Lot when it deems the same reasonable under the circumstances.

Section 5.11 Unimproved Lot Maintenance

Each Owner shall maintain any vacant Lot he or she owns in a manner consistent with those standards set forth by the DRC for vacant Lots. An Owner who chooses to hold a Lot for future

construction may do so provided the Lot is maintained in an attractive and neat condition. Said Lot(s) shall be irrigated and planted with grasses approved in the Design Manual. Unimproved Lots shall be mowed to assure that grasses do not exceed eight inches in height and are not otherwise a fire hazard. If a Lot is not maintained as required by this Section 5 .11, the Association shall have the right to perform the necessary maintenance and assess the Lot Owner for such costs.

ARTICLE VI – EASEMENTS

Section 6.1 Easements in Favor of Association

Declarant and the applicable Related Parties have granted the easements described in this Section 6.1. All references to Declarant in this Section 6.1 shall be deemed to include the then-current owner of the applicable portion of the Easement Area at any time the same is not Declarant. To the extent there is any conflict between the terms of the easement document(s) granted hereunder and the terms of this Section 6.1, the terms of the easement document(s) shall govern.

A. Riparian Easement

(a) Grant. Concurrent with the recordation of the Original Declaration, those Related Parties who own the same granted to the Association, for the benefit of the Owners, an easement (the "Riparian Easement") over that certain real property identified in attached **Exhibit C** (the "Riparian Easement Area") along the Deschutes River for pedestrian and equestrian access and uses; provided, however, all hiking and horseback riding shall be limited to designated trails only unless the rules and regulations promulgated by the Declarant specify otherwise. Such Riparian Easement shall include the right of all Owners to access the river and hike, ride horses, fish or swim within the Riparian Easement Area, subject to the terms of such Riparian Easement. The Riparian Easement shall provide that there shall be no construction within the Riparian Easement Area except for (i) hiking and horseback riding trails and related improvements constructed by Declarant; (ii) improvements for the use of pedestrian and/or equestrian users, including, without limitation, decks, pavilions, paddocks, benches and/or shelters, constructed by Declarant; and (iii) construction, installation, repair and replacement of irrigation facilities by Declarant, including up to five points of diversion at the river for delivery and maintenance of irrigation water for use on adjacent land, including without limitation the Agricultural Easement Area.

(b) Special Provisions for Equestrian Portion. A portion of the Riparian Easement Area crosses the parcel of land described on attached **Exhibit G** as the "Equestrian Area". That portion of the Riparian Easement Area is hereinafter referred to as the "Equestrian Portion" and is identified on attached **Exhibit C**. Notwithstanding any other provision of this Declaration to the contrary, the easement document shall provide that the terms relating to the Riparian Easement will be modified with respect to the Equestrian Portion to provide that the following terms apply to the ownership and use of such Equestrian Portion:

(i) Declarant may from time to time grant such easements and licenses to use the Equestrian Portion as it may choose in its sole discretion and the restrictions on the granting of such easements and licenses contained in this Declaration shall not apply;

(ii) Declarant may use such Equestrian Portion for any such purposes as it chooses in its sole discretion to the extent permitted by applicable law;

(iii) Unless and until any portion of the property described on attached **Exhibit G** is annexed into Deschutes River Ranch as a Lot, Declarant shall not charge, and the

Association shall have no obligation to pay, any of Declarant's costs related to the taxes, insurance, operation and maintenance for the Equestrian Portion except to the extent such costs result from the negligent or willful actions or omissions of the Association and/or its members and/or their respective employees, agents, tenants, guests, contractors, or invitees;

(iv) Declarant may construct such improvements on the Equestrian Portion as it chooses in its sole discretion to the extent permitted by applicable law; and

(v) To the extent that any other terms of this Declaration are inconsistent with the terms of this Section 6.1.A(b), the terms of this Section 6.1.A(b) shall govern with respect to the Equestrian Portion.

B. Upland Wildlife Easement

Concurrent with the recordation of the Original Declaration, those Related Parties who own the same have granted to the Association, for the benefit of the Owners, an easement (the "Upland Wildlife Easement") over that certain real property identified in attached Exhibit D (the "Upland Wildlife Easement Area") for pedestrian and equestrian access and uses; provided, however, all hiking and horseback riding shall be limited to designated trails only unless the rules and regulations promulgated by the Declarant specify otherwise. Such Upland Wildlife Easement shall include the right of all Owners to access the Upland Wildlife Easement Area to hike and ride horses, subject to the terms of such Upland Wildlife Easement. Such Upland Wildlife Easement shall provide that no improvements shall be constructed in the Upland Wildlife Easement Area that block the existing views of the Deschutes River from the dwellings constructed on the Lots.; provided, however, Declarant shall have the right to amend the Upland Wildlife Easement (and the Association shall consent to the same in writing upon request by the Declarant and without the need of a vote of Owners) by removing up to 20 parcels (the size of each shall be subject to the terms contained in Section 6.1.G below) from the Upland Wildlife Easement Area, which parcels may then be sold, leased or otherwise set aside for the exclusive use of a third party by Declarant and annexed into this Declaration as additional Lots. Upon removal from the Upland Wildlife Easement Area, such parcel(s) shall no longer be subject to the terms of the Upland Wildlife Easement, including, without limitation, the restriction on view-blocking improvements and the use limitation described in this paragraph. The Upland Wildlife Easement shall limit uses in the Upland Wildlife Easement Area (excluding any future Lots created out of any portion thereof) to one or more of the following: (i) grazing or agricultural purposes; (ii) wildlife habitat restoration; (iii) construction and/or use of amenities, such as hiking and/or horseback riding trails; (iv) allowing the land to return to its natural state; and (v) construction, maintenance, repair and replacement of utilities and/or roads.

C. Agricultural Easement

Concurrent with the recordation of the Declaration, those Related Parties who own the same have granted to the Association, for the benefit of the Owners, an easement (the "Agricultural Easement") over that certain real property identified in attached Exhibit E (the "Agricultural Easement Area"), which property includes approximately 180 acres, for pedestrian and equestrian access and uses; provided, however, all hiking and horseback riding shall be limited to designated trails only unless the rules and regulations promulgated by the Declarant specify otherwise. Such Agricultural Easement shall include the right of all Owners to access the Agricultural Easement Area to hike and ride horses. Such Agricultural Easement shall provide that no improvements shall be constructed in the Agricultural Easement Area that block the existing views of the Deschutes River from the dwellings constructed on the Lots; provided, however, Declarant shall have the right to amend the Agricultural Easement (and the Association shall consent to the same in writing upon request by the Declarant and without the need of a

vote of Owners) by removing up to 12 parcels (the size of each shall be subject to the terms contained in Section 6.1.G below) from the Agricultural Easement Area, which parcels may then be sold, leased or otherwise set aside for the exclusive use of a third party by Declarant and annexed into this Declaration as additional Lots. Upon removal from the Agricultural Easement Area, such parcel(s) shall no longer be subject to the terms of the Agricultural Easement, including, without limitation, the restriction on view-blocking improvements and the use limitation described in this paragraph. The Agricultural Easement shall limit uses in the Agricultural Easement Area (excluding any future Lots created out of any portion thereof) to one or more of the following: (i) grazing or agricultural purposes; (ii) wildlife habitat restoration; (iii) construction and/or use of amenities, such as hiking and/or horseback riding trails; (iv) allowing the land to return to its natural state; and (v) construction, maintenance, repair and replacement of utilities and/or roads.

The Agricultural Easement has designated a portion of the Agricultural Easement Area, as shown on attached **Exhibit E** as the "M.C. Awbrey Agricultural Preserve" (the "Preserve"). Declarant covenants that the Agricultural Easement will limit the use of such Preserve to agricultural (such as grazing or crops), wildlife habitat (such as management and/or restoration, possibly in conjunction with a non-profit or governmental organization) and passive recreational uses (such as walking, hiking and dedicated trails). No development or residential homes will be permitted in the Preserve. Portions of the Preserve may be used for the construction, placement, maintenance, repair and replacement of utility improvements constructed by Declarant (or by third parties pursuant to easements granted by Declarant) such as a well house, water lines, drain fields and Community Septic System facilities. In addition, Declarant may permit construction and/or maintenance of pedestrian trails.

D. Recreation Easement

Concurrent with the recordation of this Declaration, those Related Parties who own the same have granted to the Association, for the benefit of the Owners, an easement (the "Recreation Easement") over that certain real property identified in attached Exhibit F including the use of any improvements located thereon from time to time for recreation purposes (the "Recreation Easement Area"). The Recreation Easement will provide that although a tennis court and recreation facility currently exist in the Recreation Easement Area, Declarant will remove such court and facility in the future and shall have no obligation to reconstruct, replace or relocate the same.

E. Use of, Conveyance of, and Additions to Riparian, Upland Wildlife, Agricultural and Recreation Easements

By using any portion of the Riparian Easement Area, the Upland Wildlife Easement Area, the Agricultural Easement Area or the Recreation Easement Area, each Owner (i) acknowledges that hiking, horseback riding, fishing, swimming and other recreational activities involve inherent and other risks of injury and/or property damage; (ii) agrees to expressly assume all risks, including of injury and/or property damage, that may result from such activities; (iii) agrees to comply with all applicable laws; (iv) agrees to obtain the agreement of his or her family, guests and invitees to these terms and conditions and to all applicable rules and regulations prior to such persons engaging in such activities; and (v) agrees that neither the Declarant nor the Association shall be liable for any injury, property loss or damage, or liability suffered by such Owner and his or her family, guests and invitees, regardless of the cause.

The easements shall provide and each Owner acknowledges that no guest or invitee of any Owner shall access any of the easement areas unless he or she is accompanied by the sponsoring Owner and/or is in possession of a Deschutes River Ranch Guest Pass issued by Declarant.

The easements shall provide and each Owner acknowledges that no all-terrain vehicles (ATVs) or other motorized vehicles shall be permitted in any of the Riparian Easement Area, the Upland Wildlife Easement Area, the Agricultural Easement Area and/or the Recreation Easement Area except as may be approved by Declarant for ranch purposes. Notwithstanding the foregoing sentence, and subject to governmental and/or regulating authority requirements, including county code, and documents related to Deschutes River Ranch and the Easement Areas as described in Section 6.1, this section has been amended to permit ATV access from the Recreation Easement Area along the designated trail to the Pavilion and from the designated trail off of White Rock Loop to the Pavilion, only, along the route depicted below:

Use of the Riparian Easement, the Upland Wildlife Easement, the Agricultural Easement and the Recreation Easement shall be subject to all applicable laws, such rules and regulations as Declarant shall establish from time to time and the terms of the applicable Easement(s). Declarant shall have the right, but not the obligation, to convey all or any portion of the Riparian Easement Area and/or the Upland Wildlife Easement Area and/or the Agricultural Easement Area and/or the Recreation

Easement Area to the Association at any time, subject to the applicable terms of Section 1.6. Upon such conveyance, such land shall immediately become and constitute Common Area hereunder. So long as Declarant continues to own such Riparian Easement Area, such Upland Wildlife Easement Area, such Agricultural Easement Area and such Recreation Easement Area, Declarant shall be responsible for the insurance and maintenance of same; provided, however, Declarant shall have the right to condition Owners' use of amenities constructed on such areas upon compliance with such rules and regulations as Declarant may establish from time to time. In addition, Declarant shall have the right to convey all or any portion of the Riparian Easement Area and/or the Upland Wildlife Easement Area and/or the Agricultural Easement Area and/or the Recreation Easement Area (including any improvements thereon) to any third party without the consent of the Association or any Owner, provided such conveyance remains subject to the applicable easement(s). Declarant shall have the right to convey portions of its rights hereunder together with the transfer of all or any portion of the Riparian Easement Area and/or the Upland Wildlife Easement Area and/or the Agricultural Easement Area and/or the Recreation Easement Area to a third party. Upon a conveyance of all or any portion of the Riparian Easement Area and/or the Upland Wildlife Easement Area and/or the Agricultural Easement Area and/or the Recreation Easement Area to the Association, the easement with respect to such portion of property shall cease, the Association shall assume responsibility for the maintenance of same (including all improvements thereon) and Declarant's obligations with respect thereto shall cease. The easement document shall provide that Declarant shall have the right to convey such road and utility easements over any portion of the Riparian Easement Area, the Upland Wildlife Easement Area, the Agricultural Easement Area and the Recreation Easement Area as it elects in its sole and absolute discretion; provided, however, Declarant shall not have the right to grant easements to third parties to use such easement areas for river access or recreation.

So long as Declarant or a third party owns such, the Association shall pay a reasonable annual fee for the insurance, taxes on and maintenance of the Riparian Easement Area, the Upland Wildlife Easement Area, the Agricultural Easement Area and the Recreation Easement Area, including all improvements or amenities thereon (except to the extent the Association has maintained any such improvements as Common Maintenance Areas). The amount of such annual fee shall be determined by Declarant but shall not exceed the Association's and Owners' reasonable share of Declarant's costs incurred in paying taxes, obtaining and maintaining insurance and maintaining such property (including improvements). Such fee shall be a common expense, and the Association shall fund the same through assessments on the Lots.

Declarant shall have the right to use the Riparian, Upland Wildlife, Agricultural and Recreation Easement Areas for any and all purposes to the extent the same are not inconsistent with the terms of the applicable easements. The following uses shall be deemed consistent with the terms of the Riparian, Upland Wildlife, Agricultural and Recreation Easements: all existing improvements, including the use thereof; installation, construction, maintenance, repair and replacement of utility facilities (including aboveground improvements such as a pumphouse) and roads by Declarant, its successors or third parties to whom Declarant has granted an easement or license; construction, installation, repair and replacement of irrigation facilities by Declarant and/or its successors and assigns; and construction and use of improvements that complement and/or enhance the use of such easement areas hereunder.

The easement document shall reserve to Declarant the right to amend the easements by adding additional property to any or all of the Riparian Easement Area, the Upland Wildlife Easement Area, the Agricultural Easement Area and the Recreation Easement Area. The Association shall consent to the same in writing upon request by the Declarant and without the need of a vote of Owners. Upon the addition of any property to the Riparian Easement Area or the Upland Wildlife Easement Area or the Agricultural Easement Area or the Recreation Easement Area, such property shall commence being subject to the terms and conditions of the easement document as if such additional property had always been a part of the applicable easement area.

F. Licenses to Third Parties to Use Riparian, Upland Wildlife, Agricultural and Recreation Easement Areas

So long as Declarant or a third party owns such property, Declarant or its successor(s) shall have the right (and the Riparian, Upland Wildlife, Agricultural and Recreation Easements will provide for such right) to grant licenses to adjacent or nearby landowners to use the Riparian, Upland Wildlife, Agricultural and Recreation Easement Areas; provided, however, (i) Declarant or its successors shall grant such licenses to owners of not more than five (5) separate lots at any one time, each of which license shall benefit not more than one family; and (ii) such licensees shall be subject to the same rules and regulations relating to use of the easement areas as Lot Owners. Each such license shall terminate upon licensee's sale of his or her property (although Declarant shall have the right to issue a new license to the purchaser), and upon termination, may be issued to a new licensee, subject to the terms hereof. Although Declarant may grant the foregoing licenses, the easement document shall provide that Declarant shall have no right to grant easements to third parties to use the Riparian, Upland Wildlife, Agricultural and Recreation Easement Areas for recreation, fishing, hiking, swimming or horse-back riding purposes.

G. Estate Lots Created in Easement Areas

Declarant's rights to remove acreage from the Upland Wildlife Easement Area (pursuant to Section 6.1.B) and the Agricultural Easement Area (pursuant to Section 6.1.C) to create Estate Lots to be annexed into Deschutes River Ranch shall be subject to the terms of this Section 6.1.G. Sections 6.1.B and 6.1.C give Declarant the right to carve out up to 20 Estate Lots from existing acreage in the Upland Wildlife Easement Area and up to 12 Estate Lots from existing acreage in the Agricultural Easement Area for a total of 32 Estate Lots. Declarant covenants and agrees that: (i) at least 22 of such Lots shall be a maximum of 3 acres each in size; (ii) at least 6 more such Lots shall be no larger than 5 acres each in size; (iii) no more than 4 of such Lots shall be larger than 5 acres; and (iv) in no event shall any such Lot exceed 6.6 acres in size.

H. Indemnity for ATV Use

The Association agrees to defend, indemnify, and hold harmless Declarant against any and all claims and/or damages arising out of, relating to, or in any way caused by the use of ATVs and/or any governmental/regulatory requirements, including conditional use permits, and other applicable regulations, related to ATV use at Deschutes River Ranch and/or the Property.

Section 6.2 Utility Easements

As long as the Declarant owns a Lot, the Declarant hereby reserves the right to grant perpetual, nonexclusive easements for the benefit of Declarant or its designees, upon, across, over, through and under any portion of the Common Area for ingress, egress, installation, replacement, repair, maintenance, use and operation of all utility and service lines and service systems, public and private, including, without limitation, cable television. Declarant, for itself and its designees, reserves the right to retain title to any and all pipes, lines, cables or other improvements installed on or in such easements. The Association shall also have the right to grant the easements described herein, subject to the approval of the Declarant so long as Declarant owns a Lot.

Section 6.3 Declarant's Easement to Correct Drainage

Declarant hereby reserves for the benefit of Declarant and any Builder a blanket easement on, over and under the ground within the Property to maintain and correct drainage of surface waters and other erosion controls in order to maintain reasonable standards of health, safety and appearance and shall be entitled to remove trees or vegetation, without liability for replacement or damages, as may be necessary to provide adequate drainage facilities; provided, however, Declarant or any Builder shall limit the use of such easement to existing public or private rights of way and/or along property lines to the extent reasonably practicable and shall not in any event encroach within any building envelopes. Notwithstanding the foregoing, nothing herein shall be interpreted to impose any duty upon Declarant or any Builder to correct or maintain any drainage facilities within the Property.

Section 6.4 Easement for Unintentional Encroachment

The Declarant hereby reserves an exclusive easement for the unintentional encroachment by any structure upon the Common Area caused by or resulting from, construction, repair, shifting, settlement or movement of any portion of the Property, which exclusive easement shall exist at all times during the continuance of such encroachment as an easement appurtenant to the encroaching property to the extent of such encroachment.

Section 6.5 Entry Easement

If the Owner of any Lot fails to maintain the Lot as required herein, or if there is an emergency, the Association shall have the right to enter upon the Lot to make emergency repairs and to do other work reasonably necessary for the proper maintenance and operation of the Property. Except in the case of emergency, such entry shall first require at least twenty-four hours' written notice to the Owner, which notice may be made by a posting on the front door of the Unit located on such Lot. Entry upon the Lot as provided herein shall not be deemed a trespass, conversion, or otherwise create any right of action in the Owner of such Lot. The Association shall not be liable for any damage so created unless such damage is caused by the Association's willful misconduct or gross negligence.

Section 6.6 Reserved Easements

Easements for installation and maintenance of utilities, detention ponds, and/or a conservation area are reserved as may be shown on the Original Plat, the Plat or any replat of the Property. Within these easement areas, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may hinder or change the direction of flow of drainage channels or slopes in the easements. The easement area of each Lot and all improvements contained therein shall be maintained continuously by the Owner of the Lot, except for those improvements for which a public authority, utility company or the Association is responsible.

In addition, Declarant declares a non-exclusive, perpetual access easement for pedestrian and vehicular access to and from the Riparian Easement Area, the Upland Wildlife Easement Area, the Agricultural Easement Area and the Recreation Easement Area for the benefit of the owners of such Riparian Easement Area, Upland Wildlife Easement Area, Agricultural Easement Area and Recreation Easement Area over and across such roads as may exist from time to time in Deschutes River Ranch. Such easement shall permit the owner of the benefited property (together with their families, successors, assigns, invitees and guests) to access the benefited property and to permit the owners of utilities located on the benefited property to access the same. Use of such roads shall be subject to compliance with the rules and regulations of Deschutes River Ranch, to the extent required by Section 11.4.

Section 6.7 Temporary Completion Easement

All Lots shall be subject to an easement of ingress and egress for the benefit of the Declarant, its employees, subcontractors, successors and assigns, over and upon the front, side and rear yards of the property as may be expedient or necessary for the construction, servicing and completion of dwellings and landscaping upon Lots adjacent to the property, provided that such easement shall terminate twenty-four (24) months after the date such Lot is conveyed to the Owner by the Declarant.

Section 6.8 Maintenance Easements

An easement is hereby granted and reserved in favor of the Association and its successors, assigns, contractors, property managers, agents and employees over, across, upon, the Common Areas and any Common Maintenance Areas or other areas of Deschutes River Ranch necessary or appropriate for purposes of accomplishing the maintenance, repair, replacement or other obligations of the Association hereunder.

Section 6.9 Maintenance and Access Easements

Craig S. Morton and Rebecca A. Morton hereby grant to the Association a non-exclusive perpetual one hundred forty (140) foot easement on and over the entry area (including the stone wall, fencing and landscape area) as shown on attached **Exhibit B** for purposes of maintaining the same. Craig S. Morton and Rebecca A. Morton hereby grant to the Association and to the owner(s) of each Lot a non-exclusive perpetual one hundred forty (140) foot easement on and over the entry road off of Swalley Road, as shown on attached **Exhibit B**, for pedestrian and vehicular access. Craig S. Morton and Rebecca A. Morton hereby grant to the Association a non-exclusive perpetual forty (40) foot easement on and over those private roads that connect the entry road to Rock Canyon and Arrowhead Drive, as shown on attached **Exhibit B**, for purposes of maintaining the same. Craig S. Morton and Rebecca A. Morton hereby grant to the Association and to the owner(s) of each Lot a non-exclusive perpetual forty (40) foot easement on and over those private roads that connect the entry road to Rock Canyon and Arrowhead Drive, as shown on attached **Exhibit B**, for pedestrian and vehicular access. The easements granted in this Section 6.9 shall run with the land and be binding upon the successors and assigns of Craig S. Morton and Rebecca A. Morton. The access easements granted to owners of Lots in this Section 6.9 shall run with the land and inure to the benefit of subsequent owners of each Lot.

ARTICLE VII - USE, OCCUPANCY, CASUALTY, AND INSURANCE

Section 7.1 Residential Use

All Lots and Units shall be used only for single-family residential purposes in accordance with, and subject to, the other provisions of this Declaration.

(A) Time-Share Ownership Prohibited. No purchaser of a lot shall receive a right to the recurrent, exclusive use, or occupancy of the lot or property annually or on some other periodic basis, and any such attempted conveyance shall be void. However, this restriction does not prevent joint ownership of lots which do not include exclusive use periods. The forgoing restriction is intended to prohibit 'timeshare' type usage of the property because such use is inconsistent with the development plan of the property as envisioned and as developed. In addition, the Association reserves the right to limit use and access to any ranch amenity or common area. Any owner who violates this Section 7.1 may

be subject to fines, prohibited from using ranch amenities or common areas, and be subject to any other legal action or rights held by the Association.

(B) Rental of Lots. No Owner shall be permitted to lease or rent his or her Lot for a period of less than one year. "Leasing or Renting" means the granting of any right to use or occupy a Lot for a specified term or indefinite term, in exchange for the payment of rent or other monetary consideration. All lease and rental agreements must be in writing and shall be subject to this Declaration. No Owner may lease or rent less than the entire Lot.

Section 7.2 Commercial, Institutional, or Other Non-Residential Uses

No commercial, institutional, or other non-residential use (including residential day care facilities) shall be conducted on any Lot without the written approval of the Board. Any such use must comply with applicable law, including, without limitation, zoning requirements. The decision of the Board shall be final and conclusive. The Board may review, and repeal, any such approval from time to time at the discretion of the Board if, in the opinion of the Board, the use has changed or increased to a level not consistent with the original approval. In no event shall the decision of the Board as to permissibility of a requested non-residential use be construed as a representation of the legal permissibility of such use.

Section 7.3 Declarant or Builder Use

Except for the public liability and property damage insurance required under the first sentence of Section 7.4, the provisions of this Article shall not apply to the use of any Lot or Unit by the Declarant or any Builder as: (i) a model home, sales office, or construction office; or (ii) the use of any Lot as a site for a sales office trailer or construction office trailer.

Section 7.4 Owner Insurance

Each Owner (excluding Declarant) of a Lot shall obtain, and maintain in effect, from a reputable insurance company authorized to do business in the State of Oregon, public liability and property damage insurance with respect to such Lot with limits of not less than Seven Hundred Fifty Thousand Dollars (\$750,000.00) per person per occurrence and Seven Hundred Fifty Thousand Dollars (\$750,000) for property damage. Additionally, each Owner shall obtain and maintain in effect, from such companies, fire and extended coverage casualty insurance with respect to the Owner's Unit in an amount equal to one hundred (100) percent of the replacement cost thereof. Each Owner shall also be responsible for obtaining fire and extended coverage casualty insurance with respect to that Owner's personal property. No Owner shall be obligated to obtain any of the insurance coverages described in Section 4.3, nor shall any insurance coverage obtained by an Owner (or such Owner's mortgagee) be brought into contribution with insurance obtained by the Association. The Association shall have the right, but not the obligation, to request evidence that any Owner has procured the required insurance. Upon written request from the Association, an Owner shall present a certificate of insurance evidencing the required coverages. The Association shall have the right, but not the obligation, to increase the coverage limits established by this Section 7.4 from time to time to reflect increases in the cost of living. Such increases shall require neither an amendment to this Section 7.4, nor a vote of the Owners, and shall be effective, if at all, by providing written notice to each Owner not less than thirty (30) days prior to the effective date of such increases.

Section 7.5 Casualty

In the event of damage to or destruction of a Unit, the Owner of the Unit shall (i) repair, reconstruct, and rebuild the damaged or destroyed portions of the Unit to substantially the same condition that existed prior to the damage or destruction; or (ii) demolish the Unit and all related Improvements and maintain the Lot as an unimproved Lot in accordance with the terms of Section 5.11. All repair, reconstruction, or rebuilding shall begin within six (6) months following the damage or destruction and shall be diligently pursued to completion within twelve (12) months following the damage or destruction, unless work is delayed by causes beyond the reasonable control of the Owner. Any demolition of the Unit and work necessary to bring the Lot in conformance with the requirements of Section 5.11 shall be completed within six (6) months following the damage or destruction. If an Owner fails to repair such damage timely (or to complete the demolition and Lot restoration timely), the Association shall have all rights of enforcement and remedies set forth under this Declaration.

Section 7.6 Community Septic System/Owners' Obligations

The Community Septic System shall serve only the following Lots (collectively, the "Serviced Lots"): the Subdivision Lots (including the Parcels 1-7 and 9, 10 and 12-24) and the Estate Lots 1-4 (as shown on attached **Exhibit B**) and Estate Lot 5. Accordingly, the portion of any assessments that fund the operation, maintenance, repair and replacement of any part of the Community Septic System shall be allocated and charged only to the Serviced Lots. No Owner of a Serviced Lot shall have the right to opt out of the Community Septic System. Each Owner of a Serviced Lot shall construct such septic-related improvements on his or her Lot as are required by the Design Manual and shall be responsible for the maintenance of all septic-related improvements on his or her Lot up to the point of connection with the Community Septic System. Each Owner of a Serviced Lot shall be responsible for costs incurred by the Community Septic System as a result of such Owner's negligence or willful misconduct. Upon annexation of a Serviced Lot into Deschutes River Ranch, the portion of assessments attributable to the Community Septic System shall be recalculated, along with all other assessments, in accordance with Section 2.14.

ARTICLE VIII - PROPERTY RIGHTS

Section 8.1 Owner's Use and Occupancy

The Owner of a Lot shall be entitled to the exclusive use and benefit of such Lot. Declarant, the DRC and any representative of the Association authorized by the Association may at any reasonable time, and from time to time at reasonable intervals, enter upon any Lot for the purpose of determining whether or not the use of and/or Improvements on such Lot are then in compliance with this Declaration. Except in the case of emergency, such entry shall first require at least twenty-four hours' written notice to the Owner, which notice may be made by a posting on the front door of the Unit located on such Lot. Entry upon the Lot as provided herein shall not be deemed a trespass, conversion, or otherwise create any right of action in the Owner of such Lot. The Association shall not be liable for any damage so created unless such damage is caused by the Association's willful misconduct or gross negligence.

Section 8.2 Owners' Easements of Enjoyment

Every Owner shall have a right and easement in and to the Common Areas and Common Maintenance Areas and a right and easement of ingress and egress to, from and through said Common Areas and Common Maintenance Areas, and such easement shall be appurtenant to and shall pass with the title to every Lot, subject to the following provisions:

A. The right of the Association to establish and publish rules and regulations governing Deschutes River Ranch, including use of the Common Areas, and the Common Maintenance Areas, affecting the welfare of Association members.

B. The right of the Association to suspend the right of use of the Common Areas, or the Common Maintenance Areas, and the voting rights of an Owner for any period during which any assessment against his Lot remains unpaid, or during which such Owner is otherwise in material breach hereunder; and for a period not to exceed sixty (60) days for any infraction of its published rules and regulations; provided, however, except in the case of emergency, an Owner shall first receive ten (10) days' written notice, including a right to cure during such ten-day period, prior to the effective date of such suspension.

C. The right of the Association, subject to the provisions hereof, to dedicate or transfer all or any part of the Common Areas, if any, to any public agency, authority or utility for public right-of-way purposes. Any other transfer or mortgage of Common Areas requires the consent of at least seventy-five percent (75%) of the votes outstanding, and the consent of the Declarant so long as Declarant owns a Lot.

D. All easements herein described are easements appurtenant to and running with the land; they shall at all times inure to the benefit of and be binding upon the undersigned, all of their grantees, and their respective heirs, successors, personal representatives and assigns, perpetually and in full force.

Section 8.3 Effect of Declaration

Reference in any deed, mortgage, trust deed or any other recorded documents to the easements, restrictions and covenants herein described or to this Declaration shall be sufficient to create and reserve such easements and covenants to the respective grantees, mortgagees, or trustees of said parcels as fully and completely as if those easements, restrictions and covenants were fully related and set forth in their entirety in said documents.

Section 8.4 Rezoning Prohibited

No Lot shall be rezoned to any classification allowing commercial, institutional or other non-residential use without the prior written consent of the Board and of the Declarant so long as Declarant owns a Lot, which may be withheld in the Board's or Declarant's sole discretion, as applicable. B. Notice to Institutional Holders of First Mortgage of Default or Liens

Upon the written request of any first mortgagee of a dwelling on a Lot, the Association shall furnish to such mortgagee a written notice of any default by the Owner of such dwelling in the performance of such Owner's obligations under the within Declaration or the Bylaws or Association rules or regulations which is not cured within thirty (30) days. Any first mortgagee of a dwelling who comes into possession of the said dwelling pursuant to the remedies provided in the mortgage, a foreclosure of the mortgage, or deed (or assignment) in lieu of foreclosure, shall take such property free of any claims for unpaid assessments or charges in favor of the Association against the mortgaged dwelling which accrued before the time such holder comes into possession of the dwelling.

C. Consent of Institutional Holders of First Mortgage Liens

Unless at least seventy-five percent (75%) of the first mortgagees (based upon one (1) vote per Lot for each mortgage) have given their prior written approval, neither the Association nor the Owners shall be entitled to:

(i) by act or omission seek to abandon, partition, encumber, or transfer the Common Areas, if any, or any portion thereof or interest therein except for the purpose of dedication for public right of way. (The granting of easements for public utilities or other public purposes consistent with the intended use of such property shall not be deemed a transfer within the meaning of this clause.);

(ii) substantially change the method of determining the obligations, assessments, dues or other charges which may be levied against an Owner by the Association;

(iii) by act or omission change, waive, or abandon any scheme of regulations or enforcement thereof pertaining to the architectural design or the exterior appearance of the Units or maintenance of the Units or Lots; or

(iv) fail to maintain liability and extended coverage insurance on insurable property comprising a part of the Common Areas on a current replacement cost basis in an amount not less than one hundred (100) percent of the insurable value (based on current replacement costs).

Section 12.8 Force Majeure

Except as otherwise provided in this Section 12.8, neither Declarant nor the Association nor any Owner shall be responsible for delays in fulfilling his/her/its obligations under this Declaration to the extent the delay is caused by things that are outside his/her/its reasonable control (an "Event of Force Majeure"), including but not limited to, delay in receipt of building and other required permits, acts of God, pandemics, epidemics, fire, theft, vandalism, strikes, delays in receipt of governmental approvals of building plans and abnormal adverse weather conditions not reasonably anticipatable. To the extent a delay resulting from an Event of Force Majeure could have been avoided by reasonable planning and/or diligence on the part of the party who failed to timely fulfill an obligation under this Declaration, the delay shall not be deemed to have been caused by the Event of Force Majeure. The occurrence of an Event of Force Majeure shall extend the applicable time limit or deadline by an amount of time commensurate with the amount of delay caused by the Event of Force Majeure; provided, however, such extension shall in no event exceed thirty (30) days. Notwithstanding the foregoing provisions of this Section 12.8, the occurrence of an Event of Force Majeure shall not extend the time for performance of an obligation hereunder if the failure to perform poses (or fails to cure) an imminent threat of physical harm to one or more persons.

Section 12.9 Personal Pronouns

All personal pronouns used in this Declaration, whether used in the masculine, feminine or neuter gender, shall include all other genders; the singular shall include the plural, and vice versa.

Section 12.10 Statutory References

All references to particular statutory provisions in this Declaration shall be deemed to refer to such statutory provisions or their successor provisions, if applicable.

Section 12.11 Headings

The headings contained in this Declaration are for reference purposes only and shall not in any way affect the meaning or interpretation of this Declaration.

Section 12.12 Conflicts

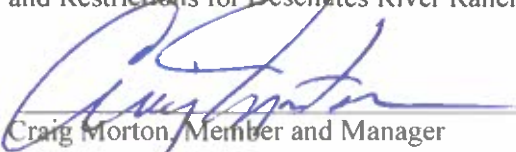

If there is a conflict between the terms of this Declaration and any Bylaws, rules, regulations or Articles of Incorporation of the Association, this Declaration shall control.

Section 12.13 Partial Invalidity

The invalidation of any one of these covenants by judgment or court order shall in no way affect any of the other provisions, which shall remain in full force and effect.
